

Technical Data

MC-015 : Mandrel Cleaner

MD-015 is a water based cleaning agent for mandrel, This cleaner will clean mandrel release and resin residue from steel and aluminum surfaces.

Application

1. MC-015 can be applied directly into mandrel or can dissolve with water (the concentration depends on the composition of the residue according to the best practice by the user).
2. Dip the mandrel and allow time to penetrate ± 5 minute.
3. Rinse with water until the dirt removed, repeat the step if the mandrel still dirty.

Physical Properties

Appearance	: Colorless liquid
pH (at 25°C)	: Max. 2
Application	: Cleaner agent
Shelf Life	: 1 Year
Soluble in water	: Soluble

Packing

20 Kg / 25 Kg net weight of plastic containers

Storage Handling

Provided proper storage and handling precautions are taken we would expect MC-015 to be technically stable for at least 12 months. For detailed advice on Storage and Handling please refer to the Safety Data Sheet.
